The City of Sacramento, Community Development Department, Environmental Planning Services has determined, pursuant to CEQA Guidelines section 15177, that the Ordinance for Removing Minimum Off-Street Vehicle Parking Requirements and policies included in the 2040 General Plan and evaluated in the Master EIR constitutes a subsequent project within the scope of the Master EIR for the City of Sacramento 2040 General Plan, certified by the City as lead agency on February 27, 2024, and that no additional environmental review for the project is required. The City has prepared an Initial Study for the project and has determined that the project would not result in any additional significant environmental effect not previously analyzed in the Master EIR. No new additional mitigation measures or alternatives are required.
