		THIS PROJECT CONSISTS OF DEMOLITION OF EXTERIOR SIDING, MANSARD, CONCRETE AND ASPHALT SURFACES.		
		The existing siding covering the building facade will be removed to return the building to its original appearance. The original brick & stucco facade was covered with T1 -11 siding by a previous ownership. The T1-11 siding and mansard above have since deteriorated and will be removed. The original stucco over brick finish will be replicated, allowing the building facade to better match the surrounding buildings and neighborhood aesthetic. The wood framed portion of the building at the north-west side was an addition by a previous ownership and will receive pre-finished metal siding.
