Statement: As a 40-year resident of North Sacramento with experience as a Sacramento County Supervisor and State Assemblymember, I have seen firsthand the importance of leadership.

The years of neglect our District’s neighborhoods and local businesses have endured must end. But achieving our goals will take more than promises — it will take imagination, hard work, and know-how.

Sacramento Firefighters and Police Officers have endorsed me because I will prioritize making our neighborhoods safer with community-oriented policing and violence prevention strategies. I will reduce homelessness by cleaning up camps throughout the district and along the Sacramento Northern bike trail along with providing housing and essential services to those in need.

I’ll work to attract public and private funding to improve all of our communities and business districts. Together, we can slow down traffic and add streetlights and sidewalks, enhance our parks with assets like a Clubhouse at Robla Community Park, and attract new shops and restaurants as we construct exciting new market-rate housing.

North Sacramento has a bright future if we invest in our youth and work to bring our diverse neighborhoods together. I would be honored to use my local and statewide relationships to be your champion at City Hall. www.rogerdickinson.com
