RMS 8.1 Upgrade

7-16-21

The Sacramento Police Department will be upgrading our RMS system to a new version on July 20th, 2021, starting at approximately 0400 hours and will take approximately 12 hours to complete. During this time users will not be able to access RMS. All reports must be submitted to the MRE approval queue prior to 0400 hours on July 20th or they will have to be held until the upgrade is complete. Users will not be able to book property via Versadex during this time. The Evidence and Property section will supply hard copy booking forms to use while RMS is being upgraded.

Affected will be MDT queries and CLETS/NCIC transactions. Public Safety IT hopes to get CLETS/NCIC back up and running within the first couple of hours. Public Safety IT will advise when CLETS/NCIC is back online

Below are links to a PowerPoint presentation which walks the user through how to use RMS 8.1 as well as release notes provided by Versaterm.

As a reminder for GOs, Street Checks, etc., there is a “landing page” that displays a list of the records you most recently accessed. Double clicking on a record from the list will take you to that record.

The screenshot shows the RMS interface with a navigation menu at the top containing 'Main', 'Records', 'Property', 'JMS', 'Personnel', 'Administration', 'Admin Systems', 'Tools', and 'Help'. Below the menu, the user information is displayed: 'Agency: SACRAMENTO POLICE DEPARTMENT', 'User: DNELSON', 'Handle: None', 'RMS: RECORDS', 'NCIC: Active', 'Theme: Light', and 'Profile: DEFAULT'. The 'Quick Launch' sidebar on the left has a 'Recent' section highlighted with a red box, containing a list of records such as 'GO SA 2013-87692', 'TK SA 2019-CS0195066 TI', and 'BALDWIN, ADAM D Jul-08-1'. The main content area is divided into sections: 'General' (Case Management/Workflow, User Handle, Query), 'Browse (Advanced Search)' (Events/Files Browse, Entities Browse, Detail Page Browse, Text Browse, Criminal Description Browse), 'Utilities' (vMail, Reminders, vNCIC, RMS (Printed) Report List, BOLO, Notepad), and 'Communications (CAD)' (Remote CAD, CAD Calls, Fast Add Towed/Stolen Vehicle). There is also an 'Analytics/Trending' section with a 'Crime Dashboard' button.

There is now a back button that allows the user to go back to the previous page within the RMS.

The screenshot shows the RMS interface with a record detail page. The top navigation bar includes 'File', 'Edit', 'Utilities', 'Case Management', and 'Help'. Below the navigation bar, there is a 'Main Desktop' section with a 'Back' button highlighted by a red box. The record detail page shows the following information: 'GO SA 2013-...', 'General Offense Report - SA 2013-87692', 'Unapproved', '5212-78 [29800(A)(1) FELON POSS GUN]', 'Status: CLEARED BY ARREST-SERGEANT USE ONLY', 'Primary Offense: 5212-78 [29800(A)(1) FELON POSS GUN]', and 'Offense Type: Felony'. The interface also shows various utility buttons like 'Modify', 'Entities (6)', 'Details (0)', 'Text (14)', 'Attachments (Yes)', 'Property (Yes)', 'Follow Ups (0)', 'Clearance Block (Yes)', 'Related Events (Yes)', and 'Notes'.

Users have access to hotlink to query an address. When viewing any record in RMS that has an associated address, the address is now hotlinked so you can click the link to query the address.
